CRISIS WATCH

An on-line publication for the Forum which informed readers about the development of all of the conflicts in the world and about the peace negotiations under way. The weekly monitoring of crisis points, which offered a global view of international politics, was richly supplemented with dossiers and leading articles.

A review of the press, which was updated daily, offered the best opinion articles in the international press.

BIOGRAPHIES OF POLITICAL LEADERS (BLP)

This service offers biographies of political leaders from all over the world in their dual national and international context. Continually updated and constantly growing, the BLP entries are an exhaustive source of documentation which offer users a complete presentation of the people studied, covering their personal development, their accomplishments in the area of power and their relationships with other actors on the world stage.

CIDOB_NEWS

A monthly publication, the CIDOB_News aims to be a vehicle for communication about the new events and activities in all of the areas of the CIDOB Foundation: research programmes, education, publications, documentation, etc. The objective of this electronic bulletin is to announce the most recent activities, in an agenda-type format, providing deeper coverage of its contents through links to the Foundation's website.

Access to this service is obtained through a form on the homepage of the CIDOB Foundation, which, at the same time, allows the organisation to gather information concerning the profile of the users interested in international subjects, with the aim of analysing and improving the quality of its services.
